73. W. W. MEN ARE ON TRIAL FOR MURDER, RESULT OF EVERETT FIGHT

Sensational Shooting Affray of Last November Brought Up in Seattle Court

[By Associated Press]
SEATTLE, Wash., March 10.—The trial has begun in the state superior court of 73 men, all of whom are alleged to be members of the Industrial Workers of the World, charged with first degree murder on account of the shooting of Deputy Sheriff Jefferson Beard at Everett, Wash., November 5, 1916, during a pistol battle between deputy sheriffs on the city dock and a steamer load of men who had gone to Everett from Seattle with the announced intention of holding a "free speech" meeting on the street. Seven men were killed during the fight, the dead being, besides Deputy Sheriff Beard, Deputy Sheriff Charles O. Curtis and these members of the boat party: Felix Baran, Hugo Gerlach, Gus Johnson, John Looney and Abe Rabinowitz.

The defendants obtained a change of venue from Snohomish county to King county, on the ground that they could not obtain a fair trial in Everett because of prejudice. In its information the state named 198 witnesses. The prosecution is in charge of Prosecuting Attorney Lloyd L. Black of Snohomish county.

The battle of November 5 was the culmination of trouble that began May 1, when the shingle weavers employed in Everett mills struck for higher wages. The Industrial Workers of the World, whose Western Washington headquarters is at Seattle, at once es-

posed the cause of the shingle weavers and began to hold street meetings on forbidden corners in Everett. A statement signed by Mayor Merrill of Everett, former Sheriff McRae of Snohomish county and President Currie of the Everett Commercial Club says that the Industrial Workers' speakers used inflammatory language and were warned and then arrested; that non-union workmen were beaten by strikers and sympathizers; that "incoming bands of Industrial Workers were met and sent on their way," violence being used in one case; that "after open threats of sabotage by Industrial Workers, several buildings were fired, most of them by the use of phosphorus."

The statement declares that the Everett authorities decided not to permit the landing of the 260 men who went to Everett November 5 on the steamer Vernon, "with the avowed purpose of breaking the city ordinance; that the sheriff and 150 citizen deputies went to the dock to turn the boat back; that while the sheriff was parleying with the leaders on the boat firing was begun from the boat, and the deputies returned the fire."

What I. W. W. Say

An authorized statement by the Industrial Workers of the World sets forth that both Beard and Curtis were killed by cross-fire from men on a dock beyond the Vernon, whose bullets swept the steamer's deck and also the dock full of deputies. It declares that street speakers in Everett were severely beaten by vigilantes; that 41 men were taken from Everett on October 30 and beaten so severely that half their number received treatment at the Seattle city hospital; that the Vernon expedition was intended to assert the constitutional right of free speech.

UNION MEN VOTE AGAINST SALOON

Published in the Congressional Record as part of the evidence offered recently in a debate on prohibition is a letter from a Colorado labor union editor, who declares the state and its people have benefited greatly from prohibition. The letter is written by Clint C. Houston, editor of the Denver Labor Bulletin, and in part follows:

"You ask about the effect of prohibition in Colorado so far as it affects the working people. The law in nine months has worked a wonderful revolution for good, and at least 75 per cent of the union voters who were against the amendment would support it now. The wage earners have ceased to spend their money for booze and are buying bread and clothing for their families. I would say, on the whole, the condition of Colorado working people is at least 50 per cent better as a result of state wide prohibition and the city of Denver is a great deal more prosperous."

"All the storerooms vacated by saloons are now occupied by legitimate enterprises, and the citizens only wonder why they tolerated the booze joints as long as they did. The increase in savings deposits has been remarkable, and the merchants report collections from 40 to 60 per cent better."

"It was claimed by the liquor interests that prohibition in Colorado would ruin the summer tourist business in Colorado. As a matter of fact, statistics of the Denver tourist bureau show that during the past summer the number of tourists visiting and remaining one week and longer in this state was almost double that of any previous year."

"It was prophesied by our 'wet' friends that a labor paper couldn't exist in a dry town. We lost about \$50 a month in liquor advertising and some 350 bartender and brewery work or subscribers. Today we are doing four times the advertising business and have five times the number of subscribers as when Denver had 350 saloons and five breweries in operation. Besides, the subscribers and advertisers pay their bills much more promptly, and we don't have to degrade ourselves by 'settling' 'em up' to a lot of barroom flies when we collect a bill."

"One of the notable improvements is the decrease in crime of every grade. There hasn't been a murder in Denver since the saloons were driven out, whereas hitherto the record was from one to five a month. The city has been riden of bums, pickpockets and badger gangsters; in fact, it is much more of a privilege than ever to live in Colorado. I used to be a pretty good patron of the liquor business myself."

"It is my opinion that abolishment of saloons in America would do as much to advance the wage earner as has organized labor. At the recent November election there was on the ballot in this state a proposition known as the 'beer amendment,' which would permit the manufacture and sale of beer in this state. It was defeated by a majority of 55,789. I would say that fully 80 per cent of the organized labor vote in Colorado went against this 'beer amendment' and among the 50,000 members of trade and railway organizations in this state it would now be a rare exception to find one who would declare himself or herself in favor of rehabilitation of the saloon."

SAYS WE BECOME CRANKS ON HOT WATER DRINKING

Hopes Every Man and Woman Adopts This Splendid Morning Habit

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness?

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-wick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effects upon the system.—Adv.
